EXAM MS-100: MICROSOFT 365 IDENTITY AND SERVICES

APP

Course Level:
Beginner

Course Duration:
Days

Course Overview:

This MS-100 Microsoft 365 Identity and Services certification training course from CloudThat offers candidates proper training and relevant study material to prepare and successfully clear the MS-100 exam. Candidates will learn how to configure your Microsoft 365 tenant, including organizational profile, component services, tenant subscription options, user accounts and licenses, and security groups.

This MS-100 course covers three essential elements of Microsoft 365 enterprise administration which include Microsoft 365 tenant and service management, Microsoft 365 identity management, and Office 365 management. Also, candidates will learn how to manage tenants, including the configuration of tenant roles and managing tenant health and services.

Prerequisites

1. Completed a role-based administrator course such as Messaging, Teamwork, Security and Compliance, or Collaboration.
2. A proficient understanding of DNS and basic functional experience with Microsoft 365 services.
3. A proficient understanding of general IT practices.

Objectives

Design, configure, and manage your Microsoft 365 tenant.

Configure Microsoft 365 Identity and access

Manage Microsoft365 apps for enterprise and other application deployments.

Plan and implement identity synchronization.
