

AI-3022: Implement Knowledge mining with Azure AI Search

Course Overview

Do you have information locked up in structured and unstructured data sources? Using Azure AI Search, you can extract key insights from this data, and enable applications to search and analyze them.

Key Features

- Guidance by Certified Experts: Benefit from expert instructors who will lead engaging online training sessions, providing you with valuable insights on Azure AI Search solution.
- Interactive Hands-On Labs: Gain practical experience through a series of interactive labs and exercises, allowing you to apply your newly acquired skills in real-world scenarios.
- Personalized Learning Plans: Enjoy tailor-made training programs that cater to your unique learning requirements, ensuring you receive the most relevant knowledge and guidance.
- Well-structured use-cases based on real world scenarios.
- Integrated teaching assistance and support through experts designed Learning Management System (LMS) and Exam Ready platform.
- Being a Microsoft Learning Partner, we offer authored curriculum that are at par with industry standards.

Who Should Attend?

- AI and data science enthusiasts eager to explore the world of AI solutions.
- AI developers and data scientists who want to understand the implementation of knowledge mining with Azure AI search.
- IT professionals looking to leverage AI search solution using Azure AI Search
- Students learning about AI and cloud services.
- Technical team leads and managers overseeing to implement knowledge mining with Azure AI Search solutions.

Prerequisites

- Basic proficiency in AI solutions
- A general awareness of AI principles
- Some exposure to AI Search solutions
- Familiarity with Microsoft Azure
- Application development experience with C# or Python

Course Modules

Module 1	Create an Azure AI Solution
Module 2	Create a Custom Skill for Azure AI Search
Module 3	Create a knowledge store with Azure AI Search
Module 4	Implement Advanced Search Features in azure AI search
Module 5	Search data outside the Azure Platform in Azure AI Search using Azure data factory
Module 6	Maintain an Azure AI Search Solution
Module 7	Perform search ranking with semantic ranking in Azure AI Search
Module 8	Perform vector search and retrieval in Azure AI search

About CloudThat

CloudThat is the first company in India to offer Cloud Training & Consulting services for mid-market & enterprise clients from across the globe. Since our inception in 2012, we have trained over 500K IT professionals from fortune 500 companies on technologies such as Microsoft Azure, Amazon Web Services, VMware, Artificial Intelligence, Machine Learning, Google Cloud, IoT, OpenStack, OpenShift, DevOps, Big Data, Kubernetes, and more.

With an expertise in major Cloud platforms, CloudThat is a proud Microsoft Gold Partner, AWS Authorized Training Partner, VMware Authorized Training Reseller, and Google Cloud Platform Partner. Till date we have conducted successful corporate training for some of the fortune 500 companies which includes Accenture, Deloitte, Infosys, Fidelity, HCL, Intuit, GE, TCS, HP, SAP, Oracle, Western Union, Philips, Flipkart, L&T and Samsung, just to name a few. We have presence in Bengaluru, Mumbai, USA & UK, offering on-site and pre-scheduled public batches in different IT centric cities of India and Overseas. Overseas.

Our Success Track

12+ Years
of Experience

200+
Corporates served

30+
countries catered

850K+
Professionals trained

500+
Projects delivered

600+
Cloud certifications
