

AWS Certified Cloud Practitioner CLF-C02 Exam Prep

Course description

Cloud Practitioner Certification Exam Prep (CLF-C02) is a one-day, instructor-led exam preparation course for the AWS Certified Cloud Practitioner (CLF-C02) exam. It does not teach AWS Cloud content. It assumes learners already have foundational cloud knowledge from Cloud Practitioner Essentials (CPE) or equivalent training. The course prepares learners to pass CLF-C02 in four ways. First, it teaches the exam's structure, question formats, scoring, and logistics. Second, it establishes exam-taki

- Course level: Fundamental
- Duration: 1 day

Activities

This course includes presentations, hands-on labs, demonstrations, and group exercises.

Course objectives

In this course, you will learn to do the following:

- Explain the importance of AWS certifications, including career benefits, technical credibility, and professional growth opportunities

- Differentiate the AWS certification portfolio and learning paths (Foundational, Associate, Professional, and Specialty), and locate Cloud Practitioner within that ecosystem
- Describe the AWS-recommended certification process, from training resources to exam delivery
- Identify the key characteristics of the Cloud Practitioner exam: duration, number of questions, format, available languages, cost, passing score, and certification level
- Apply tips, tricks, and strategies to tackle the exam, including time management, distractor elimination, strategic question reading, and stress management
- Summarize the four exam domains (Cloud Concepts; Security and Compliance; Cloud Technology and Services; and Billing, Pricing, and Support), highlighting must-study topics and likely question types
- Recognize and apply a strategic problem-solving approach when working through practice questions to identify the correct answer
- Apply exam-style practice under timed conditions, and identify official practice resources such as the AWS Skill Builder Official Practice Question Set
- Describe the exam scheduling process and modality options, including registration through Pearson VUE, delivery methods, technical requirements, and required documentation

Prerequisites

We recommend that attendees of this course have:

- None

Course outline

Module 0: Course Introduction

- Cloud Practitioner Certification Exam Prep (clf-C02)

Module 1: Course Positioning and Exam Overview

- Welcome and Course Positioning
- The Clf-C02 Exam at a Glance

Module 2: Exam Strategy and Study Framework

- The 4-Step Reading Method
- Why the Debrief Matters
- AWS Skill Builder: Free Vs. Paid Resources

Module 3: Exam Logistics: Scheduling Through Results

- Exam Timeline: Before Scheduling

- Identification Requirements (1 of 2)

Module 4: Domain 1: Cloud Concepts (24%)

- Domain 1 Overview and Task Statements
- Guided Practice: Domain 1

Module 5: Domain 2: Security and Compliance (30%)

- Domain 2 Overview and Task Statements
- Guided Practice: Domain 2

Module 6: Domain 3: Cloud Technology and Services (34%)

- Domain 3 Overview and Task Statements
- Guided Practice: Domain 3

Module 7: Domain 4: Billing, Pricing, and Support (12%)

- Domain 4 Overview and Task Statements
- Guided Practice: Domain 4

Module 8: Timed Practice and Synthesis

- Timed Practice: Instructions
- Guided Debrief and Gap Identification

Module 9: Course Summary and Next Steps

- Course Summary

About CloudThat

Established in 2012, CloudThat is an award-winning company and the first in India to offer cloud training and consulting services for individuals and enterprises worldwide. Recently, it won Google Cloud's New Training Partner of the Year Award for 2025, becoming the first company in the world in 2025 to hold awards from all three major cloud giants: AWS, Microsoft, and Google. CloudThat notably won consecutive AWS Training Partner of the Year (APJ) awards in 2023 and 2024 and the Microsoft Training Services Partner of the Year Award in 2024, bringing its total award count to an impressive 12 awards in the last 8 years.

CloudThat specializes in Cloud Migration, Data Platforms, DevOps, IoT, and cutting-edge technologies like Gen AI & AI/ML. As a Microsoft Solutions Partner, AWS Premier Tier Training Partner, Google Cloud Platform Partner, and collaborator with leading organizations like HPE, Oracle, Nvidia and Databricks, CloudThat has trained over 850,000 professionals across 600+ cloud certifications, empowering students and professionals worldwide to advance their skills and careers.
